

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 1 through 15, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period December 1 through 15, 2000.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Federal Notices

INTERGOVERNMENTAL REVIEW NOTICES (DECEMBER 1 - 15, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Department of the Interior – U.S. Fish and Wildlife Service

CONTACT: Susan Moore

TELEPHONE: (916) 414-6600

E-MAIL: N/A

ADDRESS: U.S. Department of the Interior
Fish and Wildlife Service
Sacramento Fish and Wildlife Office
2800 Cottage Way, Room W-2605
Sacramento, CA 95825

DESCRIPTION: In a news release dated November 29, 2000, the Fish and Wildlife Service (Service) announced that an amendment to the draft Recovery Plan (the Plan) for the Gabbro Soil Plants of the Central Sierra Nevada Foothills is available for public review and comment through January 29, 2001. The Plan, released in March 1999, presented strategies for recovering five federally listed plants and conserving one species of concern by establishing a preserve system. The amendment includes revision of and correction to the preserve recommendation maps included in the draft plan and the associated supporting text.

AGENCY: U.S. Postal Service

CONTACT: Norma Jellison

TELEPHONE: (650) 615-7221

E-MAIL: N/A

ADDRESS: U.S. Postal Service
Pacific Facilities Services Office

395 Oyster Point Boulevard
South San Francisco, CA 94099-0300

DESCRIPTION: A site for a new Main Post Office in Concoran, CA is under consideration. The parcel of land is known as 915 Chittendon, Concoran, CA. The site is slightly south of the existing Post Office and approximately 1 block east of the City Offices. The estimated project size for the building and site is 5,075 square feet and 52,000 square feet, respectively. Based on the assessment of the direct and indirect emissions from the project, it was concluded that project emissions would create insignificant impacts on regional air quality. No significant impact to the environment is anticipated.

AGENCY: Federal Energy Regulatory Commission

CONTACT: Vedula Sarma

TELEPHONE: (202) 219-3273

E-MAIL: Vedula.sarma@ferc.fed.us

ADDRESS: Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

DESCRIPTION: The Commission issued a Notice of Application for Amendment of License and Soliciting Comments, Motion to Intervene, and Protests on December 7, 2000. Southern California Edison Company (SCE) filed on November 9, 2000, an application to amend license for the Lytle Creek Project. The project is located on Lytle Creek, a tributary of the Santa Ana River, in San Bernardino County, California and utilizes lands of the San Bernardino National Forest. SCE proposes to revise the project boundary by removing a telephone line, caretaker building, and storage building because they are no longer used for project purposes. The proposed modifications reduce the amount of federal lands used by the project by 9.82 acres. Any comments, protests, or motions to intervene must be received on or before the specified comment date below.

CONTACT: Mohamad Fayyad

TELEPHONE: (202) 219-2665

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

DESCRIPTION: The Commission issued an Order Amending License Under Article 2 on November 30, 2000. Southern California Edison Company (SCE) filed on November 24, 1999, and supplemented on March 31, 2000, an amendment application for the Rush Creek Project to reflect certain revisions to exhibits A, F, and G of the license. The Rush Creek Project is located on Rush Creek in the Mono Lake Basin, near the town of June Lake, in Mono and Inyo counties, California. SCE proposes to (a) delete a 150-foot long transmission line, that is no longer considered primary line, from the project's boundary, and (b) expand the boundary by 0.34 acre to account for a project's power distribution line.

TELEPHONE: (202) 208-0400

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

DESCRIPTION: The Commission issued an Order Denying Rehearing to the City and County of San Francisco (San Francisco) on November 24, 2000. On June 13, 2000, the Division Director of Hydropower Administration and Compliance Division issued an order finding that the proposed Calaveras Pipeline Powerhouse Project, to be located on Calaveras Creek in Alameda and Santa Clara counties, California, is required to be licensed pursuant to Section 23(b)(1) of the Federal Power Act. The San Francisco filed a timely request for rehearing of the Division Director's order, arguing that the proposed project is not required to be licensed because it would not affect the interests of interstate or foreign commerce. Since the proposed project will be located on a body of water over which Congress has Commerce Clause jurisdiction, project construction will occur after August 26, 1935, and the project will affect the interests of interstate commerce, it is required to be licensed. Accordingly, the Commission denies San Francisco's request for rehearing.

E-MAIL: Kpfisher@bpa.gov

ADDRESS: U.S. Department of Energy
Bonneville Power Administration
P.O. Box 3621
Portland, OR 97208-3621

DESCRIPTION: Bonneville Power Authority (BPA) has prepared a Record of Decision (ROD), which can be accessed by calling the request line at 1-800-622-4520 or at www.efw.bpa.gov. The ROD explains BPA's decision to execute Power Purchase Agreements and Transmission Service Agreements with Calpine Siskiyou Geothermal Partners, L.P. (Calpine) to acquire output from the Fourmile Hill Geothermal Development Project. The proposed project involves the construction, operation, and decommissioning of a 49.9-megawatt geothermal power plant located in the Klamath National Forest in Siskiyou County, California, and in the Modoc National Forest in Modoc County, California. Calpine will develop, construct, and own the power plant. The ROD summarizes the rationale for BPA's decision to execute these agreements with Calpine.

DESCRIPTION: The Commission is reviewing the application for a new license for the continued operation of the El Dorado Irrigation District's (EID's) El Dorado Hydroelectric Project located on the South Fork of the American River and its tributaries in El Dorado, Alpine, and Amador counties, California. The Commission intends to prepare an Environmental Impact Statement (EIS) for the El Dorado Project, which will be used by the Commission to determine whether, and under what conditions, to issue a new license for the project. Once the Commission determines that they have sufficient information to proceed with their analysis, they will issue a Ready for Environmental Analysis notice for this relicensing proceeding.

2000121003	Campus Parkway Merced County Merced--Merced Development of a new multi-lane expressway on the east side of Merced between the new Mission Avenue Interchange (currently being developed by Caltrans) and Bellevue Road. Total project length is approximately 6.5 miles.	NOP	01/01/2001
2000082005	1250 Bayshore Highway-Ramada Inn Expansion Burlingame, City of Burlingame--San Mateo This project proposes construction of a one-story addition to an existing 3-story, 146-room hotel located at 1250 Bayshore Highway. The proposal includes converting six existing hotel guest rooms (2,143 SF) and infilling between the existing hotel and the freestanding restaurant on the site. The converted and new square footage would be used to add an exercise room, meeting rooms, restrooms, and a 1386 SF lap pool/exercise area. The proposed ground floor addition totals, 5,602 SF. Currently, both sides of Easton Creek and the shoreline are protected by concrete rip-rap, the top of which is approximately 8 feet above MSL. Groups of trees grow along the bay side top of bank. The applicant is proposing to construct a sea wall at the property line along the bay shoreline, which will also serve as a retaining wall to raise the new public access pathway to an elevation 10 feet above MSL. The property line is 3' to 20' inboard of the 5' MSL line. The sea wall could provide erosion control along the shoreline, for the public access pathway, and for the development on site in the event of continued erosion along the adjacent shore. The outlet of Easton Creek, which drains the coastal hills, borders one side of the site. The proposed sea wall extends approximately 280' along the rear property line adjacent to San Francisco Bay, from the northwest corner of the lot to edge of Easton creek, where it will tie into the existing creek bank. The sea wall is approximately 12 inches thick and	Neg	01/01/2001

---------------	---	------------------	----------------

Documents Received on Friday, December 01, 2000

property. The proposed project consists of (1) the excavation of known areas of soil containing lead-based paint in excess of the DTSC approved cleanup goal for future residential use; (2) post removal and excavation soil confirmation sampling to confirm that lead levels are below the cleanup goal; (3) soil staging, waste characterization, loading and offsite transportation of soil to a permitted disposal facility; (4) DTSC's approval of the confirmation sample results; (5) backfilling of the excavation with clean soil. Soil compaction will not be performed because the existing buildings are slated for demolition and the area regraded in preparation for future redevelopment, (6) regrading of the entire site in association with the building demolition and redevelopment activities, (7) representative soil sampling of the entire site to confirm that lead levels are below the cleanup goal, and (8) DTSC's approval of the representative sampling results.

The proposed project involves the excavation and offsite disposal of approximately 200 cubic yards of lead-based paint contaminated soil from areas around five residential buildings. Excavation of the five areas will range in size from 750 to 760 square feet that consists of landscaped areas surrounding the buildings which contain either two or three residential units and associated carports. An estimated 120 cubic yards of soil will be removed from the 197 Bolling Drive area, 10 cubic yards of soil from the 243 Bolling Drive area, 15 cubic yards of soil from the 296 Bolling Drive area, 10 cubic yards of soil from the 320 Bolling Drive area, and 20 cubic yards from the 210 Randolph Drive area. The soil proposed for excavation contains lead-based paint residues above levels acceptable by DTSC for potential residential redevelopment.

NOP	01/02/2001
2000122013	Brentwood General Plan Update Brentwood, City of Brentwood--Contra Costa The current General Plan for Brentwood adopted in 1993 calls for a build-out population of 90,000 to 95,000. Build-out refers to the unknown future time when the entire Brentwood Plan Area is completely developed in accordance with the land use designations. The Brentwood General Plan covers a 30-square-mile Planning Area, which includes the City of Brentwood and nearby lands in the County. The City has grown rapidly in recent years. In 1995, Brentwood was the fastest growing City by percentage in the State. In 1998-99 the City decided to update the 1993 General Plan. The major goal for the General Plan Update is to reduce residential growth, increase job generating land uses, and create a plan that will preserve and enhance the quality of life for Brentwood's citizens while providing for future growth and development for jobs, housing, public facilities, and community resources. Some of the important issues identified include growth management, neighborhoods, circulation and traffic congestion, preservation and enhancement of the downtown area, and stimulating economic development to three existing elements that are important to Brentwood's future: * Land Use * Circulation * Growth Management	NOP	01/02/2001

2000128056	Bridge Upgrade Fish & Game #3 Morgan Hill--Santa Clara The bridge repair shall consist of constructing two new abutments outside of the stream bank and up slope of the existing abutments. New girders and bridge decking shall be installed. Issuance of Streambed Alteration Permit (# R3-2000-0787) pursuant to Fish and Game Code section 1601 and 1603.	NOE	
2000128057	Storm Drain Outfall Repair Fish & Game #3 San Jose--Santa Clara This project consists of the repair of an existing storm drain outfall, the removal of broken sacked rip-rap, and the replacement of new sacks. Issuance of a Streambed Alteration Permit # R3-2000-1045 pursuant to Fish and Game Code Section 1601.	NOE	
2000128058	Replacement of Existing 42" Culvert Fish & Game #3 --Mendocino This project consists of the replacement of an existing 42" corrugated metal pipe culvert that has collapsed with a 48" culvert, 30 feet in length, that will be installed at 15% below the stream grade. A backhoe or excavator will remove existing debris and vegetation from around the existing culvert inlet and a temporary sand bag dam will be used to contain any existing flows above the work site. Compact fill material will be placed over the culvert. The disturbed banks and bed of the stream will be rip-rapped greater than one foot diameter. Any existing, exposed disturbed soil will be seeded and mulched after the work is completed. Issuance of a Streambed Alteration Permit Number #R3-2000-1290 pursuant to Fish and Game Code Section 1603.	NOE	
2000128060	Notice of Exemption for Annual Maintenance of the Department of Water Resources Flood Forecasting Stream Gaging Stations Water Resources, Department of --Butte The purpose of this project is to maintain gaging stations in a condition which allows safe and accurate flood forecasting data collection. The proposed project involves two activities: * Removal of vegetation within a 30-foot wide strip below bridges associated with flood forecasting stations using hand tools (chainsaws and weed-eaters). * Minor vegetative clearing around gage houses, catwalks, and access trails.	NOE	
2000128061	Issuance of Streambed Alteration to Agreement #00-0591, Martin Slough, Humboldt County Fish & Game HQ Eureka--Humboldt This project dredges the portion of Martin Slough that runs through the Eureka Golf Course. The project will not extend into the Senestro Ranch as originally proposed.	NOE

2000128080	Closure Plan Approval for Refineries Service, Richmond (a. k. a. PRC Patterson Inc., Richman Transter Station) EPA I.D. CAD981887570 Toxic Substances Control, Department of Richmond--Contra Costa The Department of Toxic Substances Control (DTSC) proposes a Closure Plan for Refineries Service, Richmond, a used oil transfer facility that was operated by PRC Patterson, Inc./Enviropur West and is now inactive. The facility ceased operation on January 25, 1995. Bauman Landscape, Inc. the current property owner, is conducting the facility closure pursuant to a Consent Order between DTSC and Bauman Landscape Inc. (Docket #HWCA 97/98-3008). The three above-ground storage tanks that held used oil, oily water, antifreeze or water were removed by Bauman Landscape's contraction on July 7, 1997-July 8, 1997. This project consists of confirmation soil sampling to determine whether any residual contamination is present and whether any soil removal is required. The facility had been authorized under interim Status pursuant to Health and Safety Code section 25201.6 (Standardized Permit tier). The facility is located on a portion of a parcel owned by Bauman Landscape in area zoned for industrial/commercial use. During the facility's operation, oily wastes were transported in bulk from various generations to two above-ground storage tanks (20,000 gallons and 18,700 gallons) for temporary storage. A third tank, 9,900 gallons, was used for water storage. When a sufficient volume of wastes accumulated at the facility, the contents were removed and transported to a recycling facility for processing. 1. Confirmation soil sampling will be conducted to determine if any residual contamination is present. Testing will be conducted for total petroleum hydrocarbons, metals, polychlorinated biphenyls (PCBs), and ethylene glycol. 2. If the sampling results indicate significant contamination, a plan to remediate the contamination will be developed and approved by DTSC.	NOE

2000128082	<p>City of Los Angeles, Department of Water and Power Variance Request Toxic Substances Control, Department of --Los Angeles</p> <p>The City of Los Angeles, Department of Water and Power (LADWP) has received a variance from hazardous waste manifest requirements under Section 25160 of the California Health and Safety Code, and Sections 66262.20 and 66262.23 of the California Code of Regulations (CCR), Title 22. The variance allows the use of a bill in lading in lieu of a manifest to transport and dispose of the arsenic and copper contaminated backwash solids that have been classified as a "Special Waste" by the Department of Toxic Substances Control (DTSC), Human and Ecological Risk Division (HERD) to a Class I hazardous waste facility authorized to receive the waste.</p> <p>In providing quality potable water to the City of Los Angeles, LADWP imports water from the Owens River Valleys, and the water is treated at the LADWP where the deep beds filtration units remove floc and impurities in the water. Arsenic is inherent to the surface waters of the Owens River, and copper sulfate is used for algae control in the treatment process. These filters are periodically back washed, or cleaned by reversing the direction of water flow to remove solids contaminated with arsenic and copper. The removal of arsenic and copper is essential in providing safe quality drinking water to the residents of Los Angeles. The backwash water is diverted to settling ponds (eight total) where solids are allowed to concentrate and settle. On an annual basis, the ponds are drained and approximately 20,000 tons of contaminated solids are removed, characterized, and transported to a permitted facility. The annual removal of the contaminated solids takes approximately two to three weeks to complete, weather permitting.</p> <div> <p>Received on Monday, December 04, 2000</p> <p>Total Documents: 104 Subtotal NOD/NOE: 92</p> </div>	NOE

2000121012	Oceano Specific Plan San Luis Obispo County Planning --San Luis Obispo The plan will address land use, community design, circulation, economic recovery, infrastructure, and implementation.	NOP	01/04/2001
2000121013	Douglas Family Preserve Management Plan Santa Barbara, City of Santa Barbara--Santa Barbara A proposal by the City of Santa Barbara Parks and Recreation Department to adopt and implement the Douglas Family Preserve Management Plan. The Plan includes habitat restoration, removal of invasive non-native plants, minor improvements to some trails and eradication of others, several alternatives for possible off-leash dog use, and possible construction of a caretaker's residence and restroom.	NOP	01/05/2001
2000121014	Off-Leash Dog Park Location Study Santa Barbara, City of Santa Barbara--Santa Barbara A proposal by the City of Santa Barbara Parks and Recreation Department to consider allowing dogs off-leash in up to three different locations around the City. Based on the review of these locations, the City may select none, one, two or all three locations to allow dogs off-leash. Neither Hale Park nor the beach area includes any specific proposals related to time limitations or use of the facilities by owners and their off-leash dogs.	NOP	01/04/2001
2000122022	Hopland Bypass Caltrans --Mendocino Caltrans proposes to construct a four lane freeway or expressway bypass of the community of Hopland, on Route 101 in Southern Mendocino County. The project is needed to reduce operational conflicts, accommodate existing and future traffic demand, reduce travel time, increase safety, improve air quality, reduce noise in Hopland and provide the facility concept identified in the "Inter-regional Transportation Strategic Plan".	NOP	01/04/2001
2000121009	Source Shifting Agreement between MWDSC and DWR Water Resources, Department of --Los Angeles, San Luis Obispo Lead State Agency, California Department of Water Resources and Metropolitan Water District of Southern California (MWDSC) would defer up to 200,000 acre-feet of MWDSC's SWP entitlement water for use by the Environmental Water Account. The Environmental Water Account (managed by the regulatory agencies USWFS, NMFS, DFG) would use the water for the purpose of fish protection. MWDSC will make available 100,000 acre-feet of water at a rate of 12,500 acre-feet/month from January through August 2001. If MWDSC receives 60 percent or more of its April 2001 SWP delivery request, then it will make up to 100,000 acre-feet of additional water available for deferment. The Department will either return the deferred water or compensate MWDSC for nondelivery of the water as provided for in conditions of the agreement.	Neg	01/04/2001

2000121010	Conditional Use Permit No. 511-00 & Relocation Reviews #3035.46, 3035.47 Carson, City of Gardena--Los Angeles Proposed Use- Auto auctioning one day a week - 2 modular buildings- office & Restroom use.	Neg	01/04/2001
2000121011	38th and Redwood Street San Diego, City of San Diego--San Diego 38th and Redwood site, Council Approval (LDR No. 40-0912), for the acquisition of two, single-family residential properties located at 3108 and 3114 38th Street and the possible acquisition of the single-family residential properties located at 3103, 3084, and 3090 38th Street. The subject properties have been identified as containing burn ash and contaminated soils. Demolition of the homes and burn ash remediation under the slabs of the residences is not proposed at this time. The proposed project area is located on 38th Street, between Quince and Thorn Streets within the Mid-City community planning area. Applicant: Environmental Services Department.	Neg	01/04/2001
2000122019	Correctional Treatment Center at San Quentin State Prison Corrections, Department of Larkspur, San Rafael--Marin The proposed project involves construction of a new Correctional Treatment Center (CTC) within the secure perimeter walls of San Quentin State Prison. The CTC would be 31,239 square feet in size with an elevation of 16 feet. Five existing structures would be demolished to provide space for the proposed CTC. The facility will provide 24-hour skilled nursing care, licensed patient health services and outpatient services for prison inmates.	Neg	01/04/2001
2000122020	The Boulders Condominiums Truckee, City of Truckee--Nevada A 180-unit condominium project on a 15.82 acre site. Land use and zoning approvals include (1) planned development to transfer density, reduce setbacks, and modify parking standards; (2) use permit to allow multi-family units in RS district; (3) development permit for construction of multi-family units; and (4) vesting tentative map to divide ownership of project into condominium units.	Neg	01/04/2001
2000122021	David Trutalli Polasek Quarry Conditional Use Permit, Surface Mining Permit and Reclamation Plan; APN 101-051-07; Case Nos.: CUP-00-08/ Humboldt County Planning Department Ferndale--Humboldt A Conditional Use Permit, Surface Mining Permit, Reclamation Plan and review of financial assurance cost estimates for a surface mining operation involving an upland rock quarry with a proposed total extraction of 151,760 cubic yards of aggregate material over an expected life of 15 years. Up to 19,000 cubic yards of material will be extracted per year. Usable rock product will range from sand and silt to gravel-sized aggregate. The quarry operations will involve excavation, processing with a grizzly, loading and hauling. No crushing, batch processing, blasting or drilling will be conducted on site. Equipment to be used on site includes: an excavator, a free-standing, non-mechanical screen grizzly, and water and dump trucks. Rock products will be hauled by 12 to 14 yard dump trucks. 2000122024	Year 2001 Water Purchase Agreement with Yuba County Water Agency for the Support of the EWA Water Resources, Department of --Sacramento, San Joaquin California Department of Water Resources and Yuba County Water Agency would transfer up to 50,000 acre-feet from New Bullards Bar Reservoir between June and August for use by the Environmental Water Account. The Environmental Water Account (managed by the regulatory agencies USFWS, NMFS, DFG) would use the water for the purpose of fish protection.	Neg	01/04/2001
1999091145	Sycamore Vista Business Center Vista, City of Vista--San Diego CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA#5-128-00) of the Fish and Game Code to the project applicant, Robert Irish, representing the North County Industrial Park, LLC. The applicant proposes to alter the streambed within Aqua Hedionda Creek to accomodate the construction of a building, landscaping, and 47,000 square feet of paved vehicle parking surface impacting 0.13 acres of streambed.	NOD	
2000052095	1550 Bayshore Highway - New 130-Room Hotel Burlingame, City of --San Mateo This project proposes demolition of an existing vacant restaurant building and construction of a new four-story, 130 hotel on a 2.18 acre site located at 1550 Bayshore Highway, zoned C-4. The southwest corner of the site is now vacant and once was developed with a gas station. There is an existing sea wall and public access pathway along the south and east property line, where the site adjoins San Francisco Bay. Improvements to the bay access trail are proposed as a part of this project. Landscaping is also proposed as part of the project. A parcel map was approved which divided the site from a larger 4.75 acre site. The remainder of the original parcel is occupied by two restaurants.	NOD	
2000101116	New Energy West 1 California Division of Oil, Gas, and Geothermal Resources --Kern Request to drill and test an exploratory well on a 5 acre site.	NOD	
2000102094	Emergency Response Facility Pinole, City of Pinole--Contra Costa The proposed project consists of a 3,000 gross square-foot Emergency Response Facility to serve the neighborhoods within the project vicinity. The facility would be a single-story structure containing living quarters, garage and equipment building. Public parking accomodating four cars would be located at the front of the building and four parking spaces for staff would be located behind the building. Primary access to the facility would be off Pinole Valley Road and secondary access would be off Adobe Road.	NOD

2000121017	Granite Hills Elementary School Palmdale School District Palmdale--Los Angeles The Palmdale School District is proposing construction of a 74,437 square foot elementary school that will serve approximately 750 students in grades K-8. The school will consist of an administrative / classroom structure, multi-purpose room, cafeteria, play fields and adequate parking lots.	Neg	01/05/2001
2000121018	513 North Main Street Building Demolition Los Angeles County Department of Public Works Los Angeles, City of--Los Angeles The 513 North Main Street building, constructed in 1918, does not meet current building codes and it is deterioration to the point of being unsafe. Accordingly, the Los Angeles County Department of Public Works is proposing to demolish the abandoned five-story building. Demolition activities would require approximately 10 to 13 weeks to complete. Upon completion of the demolition activities, the site would be converted to an open paved lot. The building is not listed on the National Register of Historic places because of its late date and lack of historical association with the surrounding buildings. Several nearby buildings are listed on the National Register.	Neg	01/05/2001
2000121019	District 32 Main Relief Trunk Sewer, Section 1A Extension Los Angeles County Sanitation District Santa Clarita--Los Angeles The project will require the construction of approximately 2,000 feet of 36-inches. Trunk sewer, including a siphon tunneled and/or jacked below the streambed of the Santa Clara River, and appurtenant structures.	Neg	01/05/2001
2000121020	Sawyer Combined Development Permit (PLN000103) Monterey County Planning & Building Inspection --Monterey Combined Development Permit, including Administrative Permit and Design Approval for construction of a new 6627 square foot single family residence with attached four car garage, grading (approx. 90 cubic yards cut/115 cubic yards fill) and retaining walls; and a Coastal Development Permit for tree removal (30 Monterey Pines over 12' dbh).	Neg	01/05/2001
2000121021	Dominguez Plaza Project-Negative Declaration Colton, City of -- Dominguez Plaza LLC, is proposing to renovate and remodel an existing vacant 100 room hotel, located in downtown Colton at 225 East Valley Blvd. The applicant is proposing to decrease the number of rooms to 82 rooms/suites to serve as a new Hampton Inn. The applicant is also requesting a General Plan Amendment to the circulation element to change and vacate a portion of "H" street and to modify 20th street to allow additional parking spaces. Both streets are identified as "Collector Streets in the circulation element.	Neg	01/05/2001

Provide for future growth and development in the existing community of approximately 16,500 during the next 20 years to an anticipated population of approximately 18,500 to 20,000 residents.	NOP	01/09/2001
2000121029	Montecito Community Fire Protection Plan Montecito Fire Protection District --Santa Barbara The MFPD is developing the Montecito Community Fire Protection Plan to reduce fuel loads and flammability in heavily vegetated areas by removing and selectively eliminating dead and decated vegetation over a five-year period. This will serve to reduce the amount of dead and decated vegetative fuels in selected fire hazard zones, including hazard reduction zones along roadsides. When clearing is not feasible vegetation would be modified to effect more favorable fire behavior conditions. In carrying out the Plan, the MFPD has considered how vegetation control can be successfully accomplished while minimizing conflicts with important environmental resources.	NOP	01/09/2001
2000121036	The Chino Preserve Specific Plan/Annexation/General Plan Amendment Chino, City of Chino, Chino Hills, Ontario, Norco, Corona--San Bernardino The proposed project includes the annexation of the largest remaining portion of the Chino Valley Dairy Preserve within the City of Chino's Sphere of Influence to allow for development of a portion of the approximate 5,435 acres currently within the Preserve. The City of Chino is preparing a master plan to guide the future development and annexation of the Preserve. The master plan will consist of a comprehensive, policy-level specific plan/land use plan. 2000122034	<p>MacArthur Boulevard Streetscape Master Plan San Leandro, City of San Leandro--Alameda</p> <p>The MacArthur Boulevard Streetscape Master Plan addresses the following goals: Enhancement of the commercial/business environment; Calming of traffic and enhancement of pedestrian movement; and creation of an attractive city gateway. Major design elements include enhanced curbside parking areas, pedestrian-oriented street lighting, infill street trees, corner sidewalk "bulb-outs" and shorter pedestrian street crossings, attractive benches and trash receptacles, and, in the southerly portion of the corridor, median islands for traffic calming and beautification. The project area encompasses approximately 6,000 feet of MacArthur Boulevard, extending from Durant Avenue on the north (at border with City of Oakland) to Grand Avenue/Joaquin Avenue on the south. Both the east and west sides of MacArthur Boulevard are included.</p>	Neg	01/09/2001
2000122035	<p>Bickford Ranch/Antelope Canal PLX 1816 Water Conveyance System Placer County Water Agency Loomis, Lincoln--Placer</p> <p>The Placer County Water Agency (PCWA) is proposing to construct improvements to the existing Antelope Canal/Clover Valley Reservoir raw water conveyance system. The purposes of this project are to improve the water conservation and operational efficiency of the Antelope Canal/Clover Valley Reservoir system, and provide a more appropriate raw water diversion location for the golf course proposed on the Bickford Ranch. Included in the design is the ability for PCWA to bypass the Clover Valley Reservoir as needed to remove accumulated silt and sediment.</p>	Neg	01/09/2001
2000122063	<p>East Avenue Reconstruction Project-Ceanothus to Cactus Avenue Chico, City of Chico--Butte</p> <p>The City of Chico is reconstructing East Avenue between Ceanothus Avenue and Cactus Avenue. The work will include widening the current 2-lane, 24-foot wide roadway to an 84-foot right-of-way in order to accommodate 2 lanes of travel in each direction and a center 2-way left turn lane, curb, gutter, and sidewalk. 1993081040	East of 101 Area Traffic Improvement Plan (SEIR) South San Francisco, City of South San Francisco--San Mateo In October 1999, The City of South San Francisco City Council adopted the South San Francisco General Plan and certified the General Plan Environmental Impact Report (EIR). The Plan presents a long-term, comprehensive plan to help the community understand the issues and find solutions for land use, housing, economic development, transportation, and conservation needs for the various neighborhoods that make up the city. The General Plan's Transportation Element identifies future transportation and circulation needs for a long-range planning horizon. The Element includes policies, programs, and standards to enhance capacity and provide new linkages to further integrate a multi-modal transportation system. The Element also encourages alternative modes of transit (including bicycle routes and pedestrian amenities) that would help reduce transportation impacts.	NOP	01/10/2001
2000121039	Saddleback Unified School District General Plan Amendment, Zone Change & Tentative Tract Map Laguna Hills, City of Laguna Hills--Orange The project proposes amending the General Plan from Public Institutional & Recreational to Residential. The zone change involves rezoning the site from C/PI (Community/Private Institution) and OS-1 (Parks) to R-1 (Estate Residential). The proposal also includes a tentative tract map, which proposes to divide the 22.195 acres of surplus Saddleback Valley School District land into 52 residential lots with a gross density of 2.34 dwelling units per acre. The proposal includes all the necessary on and off site infrastructure, and utilities to accommodate the	NOP	01/11/2001

2000128327	National Avenue to North Tahoe Regional Park Bicycle Trail Planning Grant Project Tahoe Conservancy --Placer The project consists of providing funds of up to \$110,000 to the North Tahoe Public Utility District for the purpose of planning bicycle trails, including the preparation of conceptual designs, project planning and environmental documents.	NOE	
2000128328	Planning Grant for Development of the Christmas Valley/Grass Lake Road Erosion Control Project Tahoe Conservancy --El Dorado The granting of funding to assist in the planning of a project which will treat runoff before it discharges into the Upper Truckee River.	NOE	
2000128329	Planning Grant for development of the Angora Phase III Erosion Control Project Tahoe Conservancy --El Dorado The granting of funding to assist in the planning of a project which will treat runoff before it discharges into Angora Creek. Potential treatments include stabilizing cut slopes with revegetation and/or rock protection, stabilizing existing roadside drainages by installing curb and gutter or rock-lined channels and vegetated swales, and capturing road sand/cinders and sediment in sediment trapping devices.	NOE	
2000128330	Planning Grant for development of Angora Creek Stream Environment Zone Restoration Project Tahoe Conservancy South Lake Tahoe--El Dorado This is a planning grant to assist in planning a stream restoration project which may include channel reconstruction, bioengineered bank stabilization, riffle pool construction, reestablishment or creation of fish and wildlife habitat, debris removal or redeployment, and revegetation and stabilization of bare soil areas. The purpose is to restore stream function and improve riparian and aquatic habitat. Restoring the creek to a more stable channel with access to its floodplain should provide substantial water quality and wildlife benefits.	NOE	
2000128331	Planning Grant for development of the Broakway Erosion Control Project, EIP Project #732 Tahoe Conservancy --Placer The granting of funding to assist in the planning of a project which will implement sediment source control measures and treat stormwater prior to it reaching Lake Tahoe.	NOE	
2000128332	Planning Grant for development of the Lake Forest Erosion Control Project, EIP Project #10061 Tahoe Conservancy Lake Forest--Placer The granting of funding to assist in the planning of a project which will implement sediment source control measures and treat stormwater prior to it reaching Lake	NOE

2000128340	Feather River Nature Center Trail Connection Fish & Game #2 Oroville--Butte Construction of a 4 foot wide foot trail from the Feather River Nature Center to Old Ferry Road. New construction will include: a washed gravel surface; a 20 x 10 foot retaining wall; and a 50 foot long ramp from the levee to the existing portion of the trail.	NOE	
2000128341	Agreement No. R4-2000-0137, Maintenance Activities of Various Lakes in the Yosemite Lakes Subdivision Fish & Game #4 --Madera At Site 1 - Golf Course Lake: The Operator will remove silt from a 40-foot-long by 30-foot-wide area in the north end of the lake and from a 150-foot-long by 30-foot-wide area in the south end of the lake. Spoils will be transported off site and used in the general maintenance of the golf course. This lake has no emergent vegetation present and is managed to prevent emergent vegetation from becoming established. At Site 2 - Clubhouse Lake: The Operator will remove silt from a 170-foot-long by 35-foot-wide section at the northern end of the lake. The Operator will construct a 150-foot-long by 80 foot-wide by 8-foot-deep catch basin at the southern end of the lake. Spoils will be transported off site and used in the general maintenance of the golf course. This lake has substantial emergent vegetation growing around its borders. The lake managed to maintain existing vegetation, but to prevent any new growth from becoming established. Dead and downed top growth of this vegetation will be burned or mechanically harvested each fall. At Site 3 - Blackhawk Lake and Coarsegold Creek: The Operator will remove accumulated silt from where Coarsegold Creek enters Blackhawk Lake. Silt from an area approximately 1,425 feet long and an average of 33 feet wide will be removed to a depth of an average of 5 feet. Silt removal will only be done in the original defined area of Blackhawk Lake below the high-water mark of 1,020 feet elevation. The Operator will also construct a silt catch basin.	NOE	
2000128342	Repair of the Raymond Avenue Trunk Sewer and the Rose Bowl Sewer Pasadena, City of Pasadena--Los Angeles The project provides for the replacement or rehabilitation of damaged/deteriorated sanitary sewer sections in order to maintain this essential service and protect public health. The beneficiaries will be those who are tributary to these sewers, those who occupy or use the properties in the vicinity of the sewer sections to be replaced or rehabilitated, and the general public.	NOE	
2000128343	Slauson Corridor Improvement Project Los Angeles County Metropolitan Transportation Authority Los Angeles, City of--Los Angeles Plant 100 trees along the Slauson Avenue rail right-of-way as part of the overall strategic improvement plan for the Slauson Corridor.	NOE

2000128344	Carmel Park & Ride Lot - Operational Improvement #10 Caltrans #5 Carmel--Monterey This project would construct a landscaped park & ride lot and bus turnout within State right-of-way at the Highway 1/ Rio Road intersection in the City of Carmel, Monterey County. The lot will have a storage capacity for approximately 17 cars and may support local area transit to further facilitate congestion relief. Access into and from the lot will be from Rio Road. The park and ride lot will use a Presto Geosystems porous pavement system that will be installed at grade. This project shall not remove any trees. The park and ride lot will be planted with appropriate trees and shrubs designated by a District Landscape Architect. All graded areas will be treated for erosion control.	NOE	
2000128345	Acquisition of Land to Develop Parklands Ceres, City of Ceres--Stanislaus Acquire two parcels to develop a future park on the land south of the bluff (approximately 40 acres), and habitat restoration on the land north of the bluff (approximately 34.4 acres). No plans have been completed for the development of the park.	NOE	
2000128346	Caltrans Geotechnical Borings Fish & Game #5 --Los Angeles Drill core samples for geotechnical samples.	NOE	
2000128348	Leasing of Office Space Motor Vehicles, Department of Ontario--San Bernardino The California Department of Motor Vehicles is proposing to lease approximately 10,602 sq. ft. of office space to house the temporary Rancho Cucamonga facility. The office will have a staff of 28 and the lease facility will include 75 parking spaces.	NOE	
2000128349	Las Cruces WTP Backwash Pond (00/01-CCG-07) Parks and Recreation, Department of --Santa Barbara Project consists of digging another pond at the existing Water Treatment Plant. The pond and appurtenances will be constructed in a previously disturbed area. No potential for significant impacts to the environment is anticipated.	NOE	
2000128350	Sector Office Septic Tank and Leach Field (00/01-CCG-06) Parks and Recreation, Department of --Santa Barbara Project consists of removing and replacing the existing septic tank and leachfield at the Sector Office. An Archaeologist will ensure that no significant impacts to natural resources occur. No potential for significant impacts to the environment is anticipated.	NOE

<u>Documents Received on Friday, December 15, 2000</u>			
2000128357	Tosco Refining Company, Pipeline Abandonment; Notification No. R4-2000-0118 Fish & Game #4 --Fresno Removal of sections of oil pipeline that cross Canoas, Zapato Chino, Jacalitos, and Los Gatos creeks, as part of idling three oil pipelines, the Coalinga Westside Line, Dudley Line and the Polvadero Line in Fresno County, California. Construction will involve bell holing above each bank in the upland to expose the line, excavation of a 2-foot-wide trench over the line to expose the pipe under the drainage and then cutting and removing the pipe in segments off the site.	NOE	
2000128358	Lennox and Gold Street Pavement Rehabilitation Yreka, City of Yreka--Siskiyou Evaluation and rehabilitation of existing pavement and replacement of some sections of failed curb and gutter plus installation of handicap ramps on West Lennox Street from Main Street to North Oregon Street and Gold Street to West Miner Street. All work will be on existing improved roadways within existing rights-of-way.	NOE	
2000128359	Tebbe Way Pavement Rehabilitation Yreka, City of Yreka--Siskiyou Evaluation and rehabilitation of existing pavement on Tebbe Way from Main Street to North Oregon Street. All work will be on existing improved roadways within existing rights-of-way.	NOE	
2000128360	Emergency Regulations for the "Assessment of Administrative Penalties" Toxic Substances Control, Department of -- This project consists of a regulation package entitled, "Assessment of Administrative Penalties" for the Department of Toxic Substances Control (DTSC), Hazardous Waste Management Program. The scope of the proposed regulation is a procedure to assess administrative penalties for violations of hazardous waste management requirements. The procedure is to be used by DTSC, local Certified Unified Program Agencies (CUPAs), and other entities authorized to assess such penalties. The decision to charge that certain violations have occurred and the settlement of an enforcement action are outside the scope of this regulation.	NOE	
2000128361	J & S Chrome Plating Company, Paving Plan Toxic Substances Control, Department of Bell Gardens--Los Angeles The objective of the interim measures is to provide an impermeable layer that will eliminate the immediate exposure potential to hexavalent chromium from the exposed soil at the north end portion of the site. Paving Plan activities include weed abatement; site grading; and installation of an asphalt cap on approximately 52,000 square feet or 1.2 acres. The interim control measure is necessary because site is in close proximity to Suva Elementary School and is located across the street from residences. The duration of the project is estimated to be no more than 15 working days. This project will be conducted under authority of an Imminent and Substantial Endangerment Determination, in accordance with California Health and Safety Code, Section 25358.3(a)(2). Asphalt concrete shall be spread over the exposed soil until a minimum 3-inch thickness is achieved.	NOE

Crushed aggregate base shall be used in areas where local surface soils are not observed to compact well, or where imported fill material is needed for site grading. A paving machine and smooth drum roller shall be used to compact the asphalt concrete and finish the top surface.

The following hazardous constituents have been identified in the soil or groundwater at the site: cadmium, chromium, hexavalent chromium, tetrachloroethylene, and trichloroethylene. Future site activities include a Remedial Investigation and Feasibility Study and a remedial action as soon as necessary. Those actions will be considered a separate project for which a Remedial Action Plan and a CEQA Initial Study will be prepared.

2000128650	Sector Office Septic Tank and Leach Field (00/01-CCG-06) Parks and Recreation, Department of -- Project consists of removing and replacing the existing septic tank and leachfield at the Sector Office. An Archaeologist will ensure that no significant impacts to natural resources occur. No potential for significant impacts to the environmental is anticipated.	NOE
